## INSTRUCTIONS

1. Trace on the dinosaur Pattern using either NCR paper or a tissue paper transferring technique before doing the print so that you know where to place the foot.
2. Cover the child's foot using a brush and a heavy application of Ghostly Grape. Stamp the foot down as shown in the photo.
3. Trace on the mountains and volcano where desired.
4. Fill in the mountains with 2 coats of either Storm or Battleship using a medium brush. Fill in the lava with Coral Reef.
5. Next, create the ground by applying one coat of Storm to the top part of the ground going side to side to give texture.
6. Then do the same with the Gecko Green making horizontal lines for the grass.
7. Fill in the belly and spots on the dinosaur with 2-3 coats of Blue Ice.
8. Next, fill in the remainder of the dinosaur with 3 coats of Ghostly Grape, working around the footprint.
9. Use your liner brush to outline your dinosaur.
10. Finally, use your detail brush or a detail writing bottle to apply your words as well as the child's name and age.

## TIPS

- Be generous with the paint to get the most even color.
- Even pressure on the liner brush will help you get an even line. You can also make a cute broken line to make it faster and more whimsical.
