## Elk Grove Paint Colors

Top color shows 1 coat (will see brushstrokes) Bottom color shows 3 coats (solid)

## Painting Tips

- Paint may look a different color while painting. It will look like the colors above after kiln firing.
- Paint your light colors first. Dark colors will cover over light. Light colors will not show well on dark.
- Allow paint to dry before applying next coat. It will look chalky and lighter in color. (Usually in 1 min.)
- Only use our underglaze paint on your piece. Using acrylic paint, pencil, Sharpies, glitter or other products will not fire properly in the kiln.
- Paint can be removed with a damp sponge or by lightly scratching it off.
